

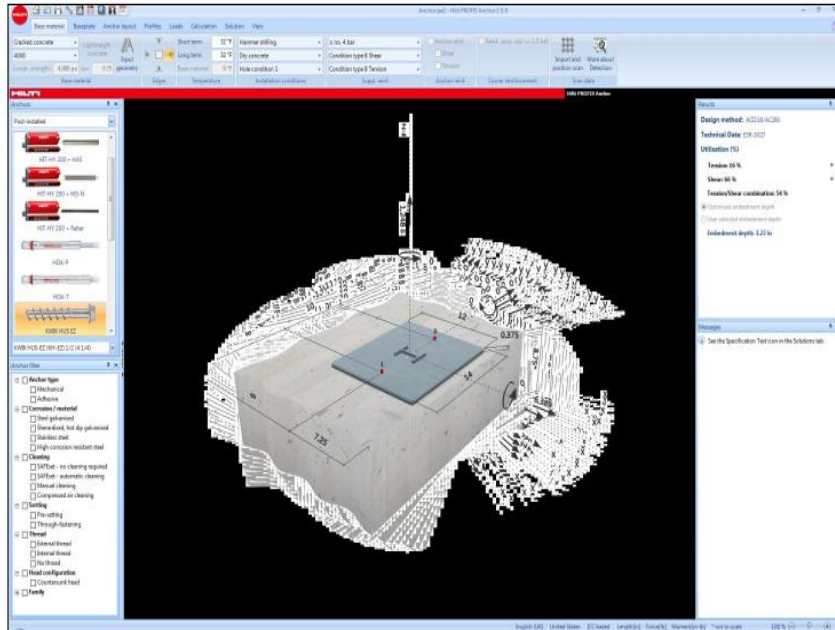

Graphics issue – double buffering

Solution:

1. Under “General”, please tick (or if already ticked, please un-tick) the “Enable double-buffering” option.
2. close the program, and reopen once more.
3. If the issue persists please reopen the PROFIS Anchor box and un-tick (or tick) the “Enable double buffering”
4. Close PROFIS Anchor
5. When you reopen PROFIS Anchor, it should work as expected.
