NOTIFICATIONS

Anchor embedment is not covered by Eurocode 2-4. Please select design method Hilti SORF. Update to SORF & select filled holes

Check the drill hole type and conditions - according to fastener size and drilling direction - given in the ET and MP (FCU). The clearing of the drill hole may be critical.

Not all design results are valid. Report input is therefore not possible. Please change an input or delete a specific load combination if report input is needed.

No standard item number available. Please contact Hilti to check feasibility of supply.

3 - The anchor calculation is based on a rigid baseplate assumption.
