## Tension load on ledger angle

I have a steel angle shape on top of concrete oriented like a ledger angle. I have a tension force in Z direction but can't seem to input a Z force value. How can I do it?

 tension, Ledger angles

## Program Stall After Recent Update

I seem to be having a similar issues as other on this. When I try to access older layout designs the software freezes up and will not allow me to manipulate them. It is not my internet connection speed as I have a Download speed of 78.5Mbps and an Upload of 62.8Mbps. I did not have this...

 Freezing/ no active buttons, Program Issues
